# FABRICATION

We offer a variety of fabrication options to help bring your vision to life and ensure your project is a success

## BREAK CUT

A snap cut is typically performed by scoring the surface and then applying pressure to break the material cleanly along the score. While this method can be quick and efficient, it is not always precise or suitable for all types of stone, especially those that tend to fracture unevenly or unpredictably.

## SAW/ HONED

Sawn cutting uses mechanical force to slice through the material, ensuring more accurate and smooth edges. This method is preferred for applications that require precision, such as when the stone or material needs to fit tightly in a design, or when the appearance of the edges must be polished or refined.

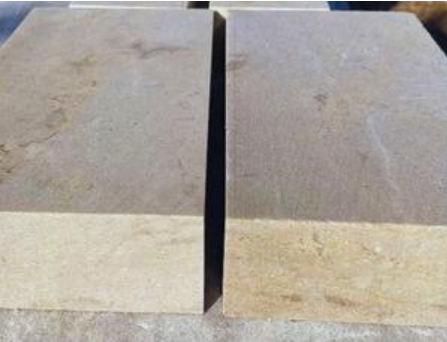

## GAUGING/ MILLING

Gauging typically involves thinning or leveling the surface of a material to create a consistent, even thickness across all pieces. This process is especially important when the material is being used in applications that require precise fits or uniform appearance. Most materials specified to a thickness of less than 1 1/2" would require Gaugin / Milling, especially pieces with snapped edges.

## HAND PITCH

Hand pitching is a traditional method of shaping and finishing stone by manually striking it with a stone chisel. This technique is typically used to give the stone a rough, natural, or textured appearance.

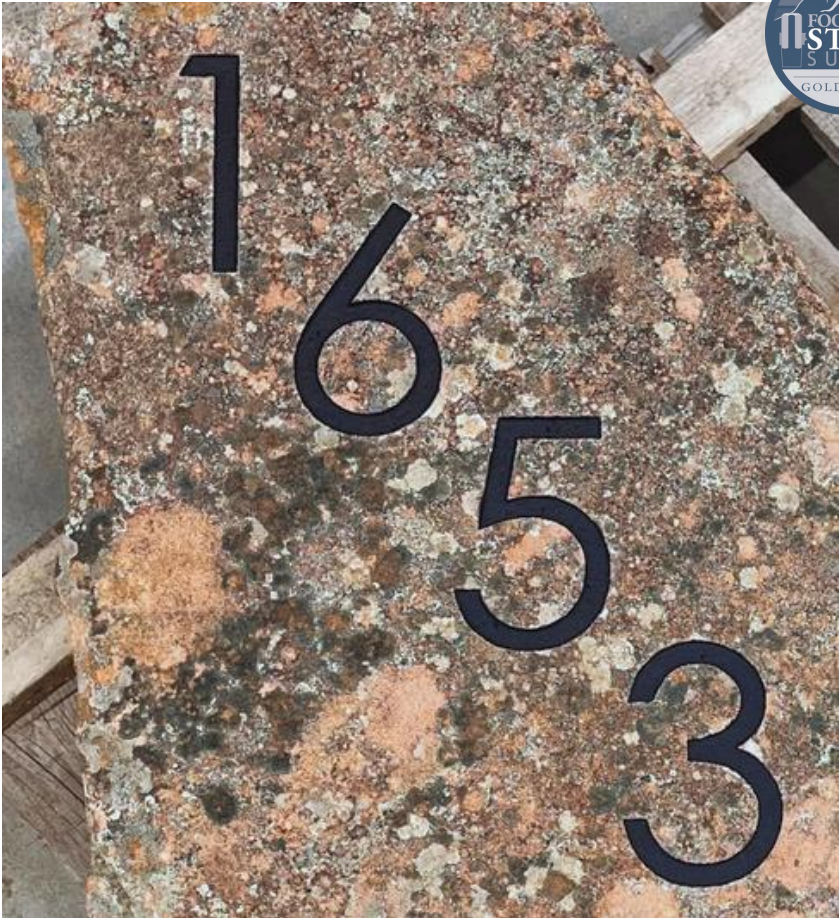

## HONING

Honing is a finishing process used to smooth, refine and enhance the surface of a the stone. Honing involves grinding the surface of the stone with abrasive tools to achieve a uniform and smooth finish.

## EASED EDGE

An eased edge involves lightly rounding or softening the sharp, 90-degree corner of the material, creating a smooth, subtle curve. This finish is less pronounced than a full round edge but still helps to eliminate the harshness of a sharp corner.

## ENGRAVING

We specialize in custom engraved stone signs, crafted from a variety of stone types.

- Garden Art
- Address Markers
- Business Signs
- Subdivision Signs
- Grave Markers, and more

Our services include in-house graphic design, allowing us to create a truly unique piece tailored to your needs.

# COLORADO RED

Colorado Red Sandstone is a type of sedimentary rock known for its rich, warm red hue. It is primarily composed of quartz grains, cemented together by iron oxide, which gives it its distinctive color. This sandstone is often used in construction and landscaping due to its durability and striking appearance.

## Steppers

- LIGHT
- HEAVY

Random shaped pieces  
Approx. 1 - 2 Sq. Ft. each

- Light steppers 1" - 1 1/2" thick
- Heavy steppers 1 1/2" - 2 1/4" thick

SOLD BY WEIGHT

## Flagstone

- THIN
- MEDIUM
- HEAVY

Random shaped pieces  
approx. 2-7 Sq. Ft. each.

- Thin: 7/8" - 1 1/8" thick
- Medium: 1 1/8" - 1 3/4" thick
- Heavy: 1 3/4" - 2 1/4" thick

SOLD BY WEIGHT

## Flagstone, Vertical Pallet

- THIN
- MEDIUM
- HEAVY

Random shape pieces  
approx. 3-12 Sq. Ft. each

- Thin: 7/8" - 1 1/8" thick
- Medium: 1 1/8" - 1 3/4" thick
- Heavy: 1 3/4" - 2 1/4" thick

SOLD BY WEIGHT

SOLD BY PIECE

The background of the entire page is a close-up photograph of Arizona Buff Sandstone. The stone exhibits a complex, layered texture with various shades of tan, beige, and light brown. There are prominent veins and irregular, organic shapes that give it a natural, rustic appearance. The lighting highlights the grain and the subtle variations in color across the surface.

# ARIZONA BUFF SANDSTONE

Arizona Buff Sandstone is a light, warm-colored sandstone with hues ranging from pale beige to soft golden tones. It is often used in architectural and landscaping applications. This sandstone is highly valued for its natural, rustic appearance and versatility, making it ideal for both interior and exterior projects.

SOLD BY PIECE

The image shows a close-up, high-angle view of numerous rectangular slabs of sandstone stacked on top of each other. The slabs are cut from a larger block, showing a consistent cleft. The color of the sandstone is a warm, golden-buff, with subtle variations in tone across the different layers and surfaces. The lighting is bright, highlighting the texture and grain of the rock. The slabs are stacked in a somewhat irregular but generally horizontal fashion, creating a sense of depth and texture.

# NEW MEXICO BUFF SANDSTONE

New Mexico Buff Sandstone is a versatile, fine-grained sedimentary rock characterized by its warm, golden-buff color with subtle variations in tone. Sourced from quarries in New Mexico, this sandstone is known for its durability consistent cleft and color , making it a popular choice for both exterior and interior applications. Also, a good alternative to Colorado Buff Sandstone.

# BOULDERS / BLOCKS

Landscape boulders and blocks are large stones used in outdoor spaces for both decorative and functional purposes. Boulders are naturally occurring, irregularly shaped stones that add a natural, organic look to gardens, water features, and erosion control areas. They come in various sizes, from small to massive, and are often used to create focal points or borders.

Available in Veneer & Wall Rock

## CO GREEN MOSSY BOULDERS

Natural stone found in Colorado, characterized by their distinctive greenish hue and moss-like surface patterns.

SOLD BY WEIGHT

## WY RED MOSSY BOULDERS

Known for their rich red color and moss-like growth on the surface. These boulders add a vibrant, earthy touch to landscapes and are often used for decorative features, rock gardens, and erosion control.

SOLD BY WEIGHT

## DARK MOSSY VENEER

Dark Mossy Veneer are flat field stones with a deep, dark hue, featuring moss or lichen growth, creating a natural, weathered look. They're used for decorative dry stacked walls and can be used vertically as wall veneer.

SOLD BY WEIGHT

Available in Wall Rock

## RAWLINS MOSSY BOULDERS

Rawlins Mossy Boulders are rugged stones with a mix of moss and lichen, offering a textured, natural appearance. They're ideal for landscaping features like rock gardens, walls and borders.

SOLD BY WEIGHT

Available in Wall Rock

## CO RED MOSSY BLOCKS

CO Red Mossy Blocks are vibrant red stones with mossy accents, providing a striking, rustic look for landscape projects like walls and borders.

SOLD BY WEIGHT

## CLEAR CREEK GRANITE BOULDERS

Clear Creek Granite Boulders are a durable, light and dark colored stones with a speckled texture, perfect for creating natural, landscaping features like focal points or retaining walls.

SOLD BY WEIGHT

## CENTRAL CITY GRANITE BOULDERS

Central City Gold Ore Granite Boulders are striking, gold-toned stones with a rugged texture, ideal for adding elegance and strength to landscape projects like rock gardens or borders.

SOLD BY WEIGHT

## RIVER BOULDERS

River boulder are rounded stones shaped by water, offering a natural, polished look ideal for water features, landscaping, and erosion control.

SOLD BY WEIGHT

## CO RIVER FLATS

Colorado River flats decorative rocks are natural stones typically found along the Colorado River, known for their smooth texture and unique, earthy colors.

SOLD BY WEIGHT

## CO RIVER ROUNDS

These stones typically feature a mix of earthy colors such as tans, browns, reds, and sometimes shades of gray, green and blue.

SOLD BY WEIGHT

Decorative Rock

# DECORATIVE ROCK

We offer the following sizes:

- River Skippers (appr. 3")
- River Flats: 4"-12"
- River Rounds: 4"-7", 8" - 12"

# NEW PRODUCT

## BLACK BEACH PEBBLES

Are often used in decorative landscaping, garden designs, and water features due to their elegant and natural look. Their smooth texture and rich, deep black hue make them ideal for creating modern, minimalist, or contemporary aesthetics in outdoor or indoor spaces. They can also be used in vases, decorative trays, and as accents in aquariums.

# ASHLAR PATTERN

The ashlar paving patterns are designed to give your project a rustic, random appearance while utilizing a repeating pattern for ease of installation. To make installation as simple as possible the stone is slightly undersized to accommodate 1/4" - 1/2" grout lines.

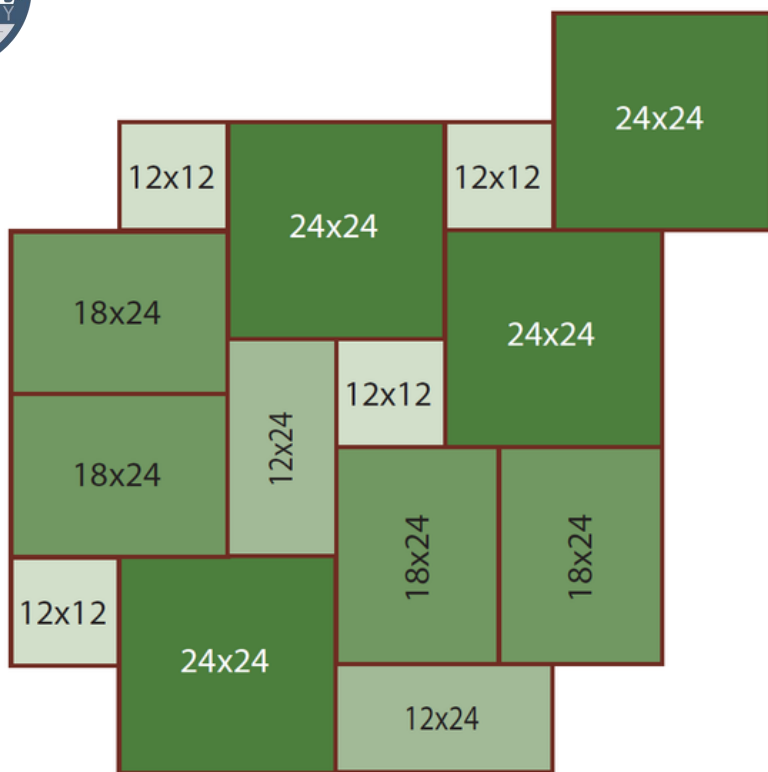

## 3 PIECE ASHLAR PATTERN

42 Sq. Ft. pattern consisting of:

- (6) pcs 12" X 12"
- (6) pcs 12" X 24"
- (6) pcs 24" X 24"

Snap cuts are 1/2" undersized

Saw cuts are 1/8" undersized

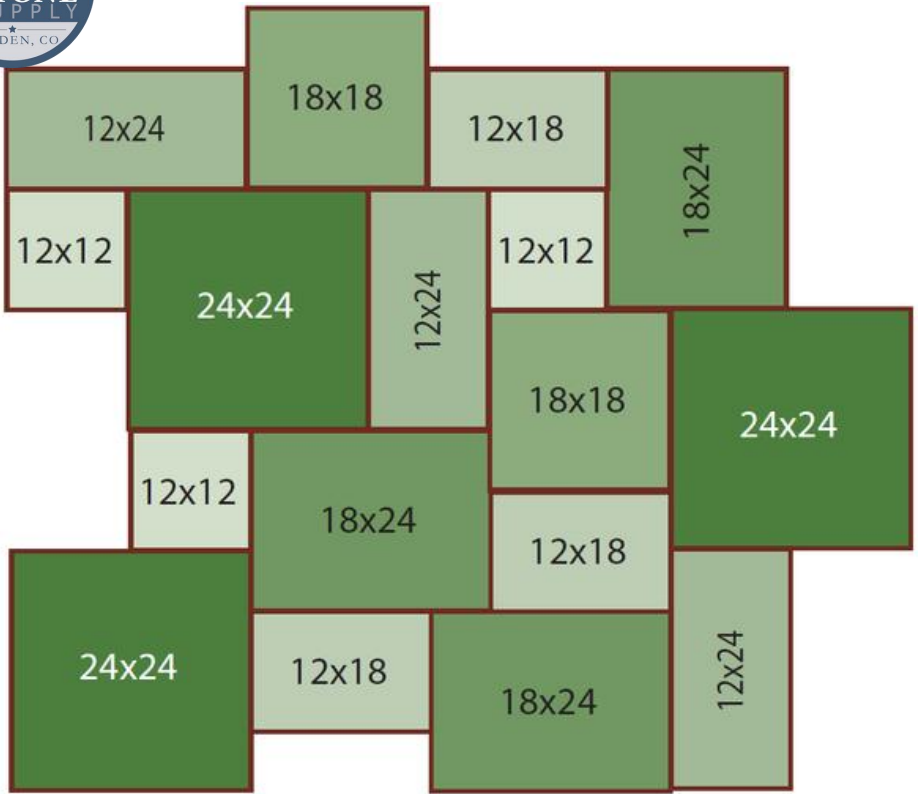

## 4 PIECE ASHLAR PATTERN

36 SQ. FT. PATTERN CONSISTING OF:

- (4) pcs 12" X 12"
- (2) pcs 12" X 24"
- (4) pcs 18" X 24"
- (4) pcs 24" X 24"

Snap cuts are 1/2" undersized

Saw cuts are 1/8" undersized

## 6 PIECE ASHLAR PATTERN

39 SQ. FT. PATTERN CONSISTING OF:

- (3) pcs 12" X 12"
- (3) pcs 12" X 18"
- (3) pcs 12" X 24"

- (2) pcs 18" X 18"
- (3) pcs 18" X 24"
- (3) pcs 24" X 24"

Snap cuts are 1/2" undersized  
Saw cuts are 1/8" undersized
